Circuit

The 3.8-mile race is set to light up the Las Vegas strip cutting through the heart of the city. It is set to be one of the fastest circuits on the calendar, with speeds comparable to the Autodromo, Monza, Italy.

Designed with overtaking in mind, the 17-turn circuit will comprise of three straights (two of which are located on the Las Vegas Strip), a high-speed section of corners, and a chicane.

Breaking with tradition, the 50-lap race is set to be staged under lights on Saturday night, creating a visual spectacle and allowing guests to experience the city's legendary nightlife after the chequered flag falls.
